Creating value

Adhering to the business philosophy of “Tracing Origins, Operating with Integrity,” our company continuously develops high-quality agricultural products, providing natural and premium food raw materials for enterprises and society. With an efficient and pragmatic management team and an advanced R&D team as our foundation, we constantly drive the company’s development, gradually bringing our products to market, striving to become a leading enterprise in the health industry and setting industry benchmarks. As an integrated production and trading enterprise, we have professional sales, R&D, and production teams, with a self-owned production base in Shaanxi. We specialize in the fine processing of Chinese herbal medicines and agricultural products, having developed over 40 types of fruit powders and more than 100 herbal extracts. Our products are widely applied in the food, dietary supplement, and beverage industries, and we have established long-term cooperation with numerous enterprises.
